ENGLISH • GRAMMAR MAZE

GRADE 12 ADVANCED | UNIT 2: RISE TO THE CHALLENGE!

Name: _____ Class: _____ Date: _____

PART 2 | GRAMMAR • 10 MARKS

Read the expository text and choose the correct answer (A, B, or C) to complete each gap. Each question is worth 2 marks.

Living Roofs: A Greener Future

In crowded cities, buildings cover much of the natural ground, creating warmer streets and leaving less space for wildlife. One practical solution is the living roof, a rooftop covered with carefully selected plants and soil. These green spaces offer several environmental benefits.

If rainwater **1. (A) flows (B) flowed (C) is flowing** into the growing layer, some of it is absorbed before it reaches the drainage system. This helps reduce pressure on city infrastructure during heavy rainfall. Living roofs can also keep buildings **2. (A) cool (B) cooler (C) coolest** than traditional dark rooftops by limiting the amount of heat entering rooms. As a result, less energy may be needed for air conditioning.

Before installation, suitable plants **3. (A) are selected (B) select (C) selecting** according to local weather conditions and the strength of the building. Some students wonder **4. (A) how do these roofs survive (B) how these roofs survive (C) how survive these roofs** without requiring large amounts of extra water. Designers explain that careful plant selection and appropriate insulation are essential.

5. (A) Finally, (B) Because, (C) Although, regular inspections help building owners identify drainage problems and keep the vegetation healthy. Although living roofs require planning and maintenance, they can improve urban biodiversity and make neighbourhoods more sustainable.

Score: _____ / 10

TEACHER'S ANSWER KEY

Unit 2: Rise to the Challenge! | Living Roofs | 10 Marks

Question	Answer	Grammar focus	Marks
1	A — flows	Zero conditional	2
2	B — cooler	Comparative adjectives	2
3	A — are selected	Present simple passive	2
4	B — how these roofs survive	Indirect questions	2
5	A — Finally	Sequencing adverbs	2
TOTAL			10

Assessment format: One expository text (approximately 180 words), five multiple-choice gaps, three options per gap, and 2 marks per correct answer.

Covered grammar outcomes: zero conditional, comparative adjectives, present simple passive, indirect questions, and adverbs of sequencing.
